## **DETAILED ACTION**

### ***Response to Amendment***

1. The present Office action is made in response to the amendment filed on 11/12/2003. It is noted that in the mentioned amendment, applicant has canceled original claims 1-60 and added a new set of claims, i.e., claims 61-73, into the application. A review of the newly-added claims has resulted that the newly-added claims direct to a device having the same scope as that claimed in the original claims. Thus, claims 61-73 are examined in this Office action.

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the feature relating to the shape and/or power of the objective lens as recited in the newly-added claim 73 is not shown in at least one figure. See present specification in page 10, section [0028], must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 2872

4. Claims 62-63 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Each of claims 62 and 63 is rejected under 35 USC 112, first paragraph because the disclosure, as originally filed, does not provide support for the features relating to the refractive correction of the spectacle lens as claimed. Applicant should note that the specification teach the use of a telescope having lens and mirrors for magnifying an object wherein the telescope is mounted/embedded into the spectacle lens. The specification has never taught that the spectacle lens comprises refractive correction as claimed.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 72 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 72 is indefinite because it is unclear the lens referred to in the feature thereof "at least one...within said lens" (lines 1-3). Applicant should note that the base claim 61 and 71 recites a plurality of lenses such as spectacle lens, objective lens and ocular lens. As such, it is unclear which lens does applicant refer by "said lens" (claim 72, lines 2-3).

***Allowable Subject Matter***

7. Claims 61, 64-71 and 73 are allowed over the cited art.
8. Claim 72 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
